TINA-AVALON R-II SCHOOL DISTRICT

MISSION, RATIONALE AND GOALS

The Tina-Avalon School strives to provide the very BEST education possible for our students. We have, therefore, developed the acronym B.E.S.T. - Better Education Starts Today, as the school's mission statement.

The rationale of education is a foundation on which a school system is built and upon which the product of the school program is evaluated. When a particular rationale of education has been generally accepted, it becomes a guide and determines the policies of the school system. The following is the basic rationale of the Tina-Avalon R-II School District.

We believe the school must assume the responsibility for the education of every child in the community despite race, gender, economic status, creed, or national heritage. Every child has a right to an individual education in keeping with his/her mental and physical endowments to acquire and use it.

We believe the goals of education must contribute to the development of the whole child. Each educational task must be solely planned so it will help the child grow mentally, emotionally, spiritually, physically, and socially. We believe there are individual differences in children and that adequate provisions must be made for a wide variety of activities that will develop the many different talents of boys and girls.

We believe schools are responsible for the increase in the economic efficiency of the individual through vocational guidance, consumer education and personal economics.

We believe schools should develop, in every child, an appreciation for honest work, and a realization that for every action the individual must assume corresponding responsibility.

We believe one of the greatest challenges for the school is to develop citizens who will function effectively in our democracy.

GOALS OF THE SCHOOL

In keeping with this general rationale of the educational program, the Board of Education has further adopted the following summary objectives in the various areas of activity affecting the individual school child:

- **Tool Subjects:** To give each pupil, in as far as his/her ability permits, a mastery of the tools of learning and communication, such as reading, writing, arithmetic, science and the use of written and spoken language.
- **Character Growth:** To develop a moral and ethical sense in each pupil so that he/she will manifest to others fairness, justice, tolerance, courtesy, and kindness for himself/herself and appreciation of his/her personal worth.
- **Mental Growth:** To encourage and stimulate the continuous growth in the pupil of his/her ability to think clearly, logically, and independently, and to know and master his/her own powers and potentialities and to exercise those powers with due regard to others.
- **Health:** To protect the right of the child to a healthy body through provision of physical education, health education, and necessary preventive health services.
- **Individual Differences:** To provide such changes in the educational program of each pupil as are called for by his/her particular capacities.
- **Citizenship:** To develop in each child, youth, and adult student an understanding and appreciation of the forces and ideals of democracy which have made America great, and to foster a sense of his/her personal opportunities and responsibility as a citizen of his/her community, state, nation, and of the world.
- **Understanding Environment:** To develop in each child, commensurate with his/her maturity, and understanding of the physical, economic, social, and spiritual world in which he/she lives, and to help him/her to adjust himself/herself effectively to his/her surroundings.
- **Social Adjustment:** To prepare the pupil psychologically for a well-balanced and happy individual, social and family life.
- **Earning a Living:** To help the pupil find his/her most productive role in life and to develop through work experience well work habits. To give those who do not go to college, university, trade, or technical schools enough basic skills and vocational training so that they will possess a marketable skill and be prepared to earn a living. To teach children how to buy goods and services wisely. All will be consumers; all should become intelligent consumers.
- **Student Activities:** To encourage wholesome and creative forms of recreation and play. To educate children to use his/her leisure time to the best advantage. These interests should be promoted in the school program.
- **Aesthetic Development:** To provide for each pupil a comprehensive understanding of the cultural subjects (music, literature, art, etc.)
- **Community Relations:** To make school an essential part of community life, serving all the people in various ways according to their needs, and supplying opportunities for adult education and other activities.
- **Utilizing Information:** To educate students on how to acquire the knowledge and skills to gather, analyze and apply information and ideas.
- **Problem Solving:** To insure students will acquire the knowledge and skills to recognize and solve problems.

The food services program provided by the school is designed to provide wholesome and appetizing meals to district students. Food Service Program

Meal Charges

Purpose

The purpose of this policy is to maintain consistent meal account procedures throughout the District. Unpaid charges place a financial strain on District finances. The Food Service Department is responsible for maintaining food charge records and for notifying the District's accounting department of outstanding balances.

Administration

1. All students (PK-12th grade) will be allowed to charge a maximum of \$100 dollars. After this maximum has been met, no additional charges will be accepted.
 - a) These meals will include only the menu items of the reimbursable meal.
 - b) After the balance exceeds \$100 dollars, the student may be given a designated menu alternate.
2. No charges will be allowed for ala carte foods and beverages after the max \$100 dollars.
3. Parents/guardians of students with negative balances will be mailed a letter by the Food Service Department and signed by the Superintendent.
4. On the last day of school all charging will be cut off.
 - Parent/guardians will be sent a written request for "payment in full."
 - All charges not paid before the end of the school year will be carried forward into the next school year.
 - Graduating seniors must pay all charges in full. Failure to do so may result in the delinquent student being denied participation in graduation ceremonies.
5. If a financial hardship is suspected, families will be encouraged to apply for free/reduced meals at any time during the school year.
6. This policy is in the Student Handbook to notify students, parents/guardians of the requirements contained in this policy. This policy will also be published on the District's website.

FREE AND REDUCED PRICE FOOD SERVICES

Eligible students, as determined by appropriate school officials based on guidelines established under the national school lunch program, will be provided nutritionally acceptable meals, snacks & milk at no cost or at a reduced cost if they are unable to pay the regular price. We encourage preschool through 12th grade students to apply for the free and reduced meal program.

The criteria for determining a student's need and the procedures for securing "no cost" and "reduced cost" meals for the student will be outlined and made known each year by the Board of Education. The criteria and procedures are established at the state/federal level. The above quoted reduced prices are subject to change pending notification from the State Department.

The students who participate in "no cost" or "reduced cost" meals will not be distinguished in any way from students who pay the regular price. Their names will not be made known to any person except such staff members as needed to make the special arrangements for the students.

The price of reduced lunches is \$0.40 for all students in grades Pre-K through 12 which include one carton of milk and one carton of juice. The price of reduced breakfasts is \$0.30 for all students in grades Pre-K through 12 which also include one carton of milk and one carton of juice. Milk or juice purchased without a school meal cost \$0.25. Second meal servings are also offered with the same stipulation as with full price meals mentioned above.

***EMERGENCY SCHOOL CLOSINGS OR DELAYED STARTING TIME**

Should it become necessary to close school by reason of weather or other emergencies, the superintendent may order the closing of the school. Notification of such closings will be given to the staff, students and public under the plan of notification developed by the superintendent and approved by the Board. The superintendent encourages the staff, parents/guardians, and students to sign-up for Dragon TextCaster and/or to listen to the following radio and television stations for notification of school closings due to inclement weather:

Radio Stations:

KAOL 1430 AM	Carrollton	KGOZ 101.7 FM	Gallatin
KMZU 100.7 FM	Carrollton	KMMO 102.9 FM	Marshall
KCHI 1010 AM	Chillicothe	KTTN 92.3 FM	Trenton
KCHI 98.5 FM	Chillicothe		

Television Stations:

KQ 2 – St. Joseph	KCTV 5 – Kansas City

The superintendent will also have the authority to delay the opening of school or to dismiss early because of weather conditions and other emergencies. If there is a delay in the opening of the school day, breakfast will not be served and preschool will be cancelled for that day.

If the district’s school is dismissed due to inclement weather after school has been in session for three or more hours, that day shall count as a full day including kindergarten. If school has been in session for two or more hours and less than three hours, that session shall be counted as one half day. When the total hours lost due to inclement weather exceeds 12 hours, the time must be made up in half or full day additions to the school term.

On days when school is not in session because of inclement weather, there will be no student-related activities in the school buildings.

When you need to conference with an administrator or teachers, please make an appointment so that we can set aside time for you.

STUDENT DRESS CODE

The Board of Education expects student dress and grooming to be neat, clean and in good taste so that each student may share in promoting a positive, healthy and safe atmosphere within the school district.

*Student dress and grooming will be the responsibility of the individual and parents/guardians, within the following guidelines:

1. Dress and grooming will be clean and in keeping with health, sanitary and safety requirements.
2. Dress and grooming will not disrupt the teaching/learning process or cause undue attention to an individual student.
3. Class activities, which present a concern for student safety, may require the student to adjust hair and/or clothing during a class period in the interest of maintaining safety standards.
4. Additional dress regulations may be imposed upon students participating in certain extracurricular activities.
5. Shoes and shirts are to be worn at all times.
6. Hair is to be clean and well groomed.
7. Shorts may be worn the regular school day providing they extend to the middle of the thigh. Culottes, split skirts, etc., will be allowed throughout the year and must also extend to the middle of the thigh.

*** When, in the judgment of the principal, a student's appearance or mode of dress disrupts the educational process, or constitutes a threat to health or safety, the student may be required to make modifications.

ATTENDANCE POLICY

Regular attendance is necessary for successful work in school. A child who is frequently absent loses much valuable class instruction and participation. Law, State Department of Education and the local Board of Education require attendance accounting. All regulations listed are for the purpose of meeting these policies, and at the same time, help students secure the finest education possible. School attendance affects all students. If individuals are absent from class an excessive amount of time, the teacher cannot do an effective job because time is taken from those students who are regularly in attendance and want to learn and is given to those students who are habitually absent.

School attendance is directly correlated with learning and academic success. Students with good attendance generally achieve higher grades, enjoy school and school activities more, and stand a much better chance of success following high school. It is therefore the intent of the Tina-Avalon R-II School District to have each student attend school every day that he/she is physically and mentally capable of learning.

For the purpose of attendance, a school day will be defined as eight (8) class periods.

Students will be allowed five (5) days of absence per semester with no penalty. The days allowed per semester are not accumulative and may not be added on to another semester. Students with more than five (5) days absence in a given semester will immediately lose the privilege of participating in any extra-curricular or co-curricular activities until they have made up the prescribed number of hours. (The senior trip is excluded from this as it is considered a field trip rather than an extra-curricular activity). Students will be required to make up five (5) hours during school sponsored zero hours, 9th hours or Saturday school, for each day absent in excess of five (5) in a given semester. Seniors must have hours completed to be eligible to participate in Commencement exercises. Undergraduates with hours must be completed before the next school year.

***A+ students: In order to maintain A+ eligibility you must maintain a 95% attendance record. On average, you will be allowed to miss 8 days per year. (NOT 10)

Students who violate the attendance policy could be turned into the Carroll County Juvenile Office. Students who are absent for more than half a day of school because of illness will not be allowed at extra-curricular activities that evening unless approved by administration. Seniors who choose not to attend the senior trip are expected to be at school that week of senior trip.

Students with excessive absences due to an accident or extended illness may be eligible for homebound services.

Absences due to school sponsored or school-sanctioned activities are not considered absences for the purpose of the attendance policy.

Students will be allowed two (2) half days for the purpose of taking their driver's test. The student must inform the principal prior to taking the test and upon returning to school must provide proof of taking the test.

Seniors will be allowed two (2) days for college/military/technical schools visit. The student must inform the Principal prior to making the visit and upon returning to school must provide proof of the visit.

Juniors will be allowed one (1) day for college/military/technical schools visit. The student must inform the Principal prior to making the visit and upon returning to school must provide proof of the visit.

The terms "excused" and "unexcused" will not be used. (Exception: Days in which a student is hospitalized, visits to the emergency room or has out-patient surgery will be considered excused.) Notes from home will only be required if the school office and parent/guardian have not made contact concerning the absence. However, a note is required if the student plans to leave school during the school day. Under normal circumstances, students other than siblings will not be allowed to leave school together while school is in session. Students leaving school early must either drive them or be picked up by a parent/guardian or a responsible relative.

The Superintendent may excuse an employee or a student's absence for the purpose of visiting with a parent or legal guardian who is an active duty member of the uniformed services and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting.

STEPS TO FOLLOW WHEN ABSENT

Please phone the school office by 9:00 a.m. when your child is going to be absent. If a telephone call is not possible, send a written explanation of the absence to the principal or his/her designee on the day he/she returns to school. You may telephone the office 24 hours a day at 622-4211, as voice mail is available. It is the student's responsibility to make up all missed assignments. Assignments that are not made up will be reflected in your child's grades.

LEAVING SCHOOL GROUNDS DURING THE SCHOOL DAY

Please inform the principal or office personnel if your child will need to leave school early. Parents/guardians will need to sign out the student in the office. The secretary or principal will notify the classroom teacher that the student is being checked out and will ask the student to come to the office.

DISMISSAL

Parents/guardians who are picking up students at the end of the school day are asked to wait by the south door or in their cars. If you come into the building for your child, please wait for the teachers to walk the students down the hall. This will alleviate unnecessary traffic in the hallways.

Please send a note or call the school if your child is not going home by the usual means.

STUDENT DISMISSAL PRECAUTIONS

The Tina-Avalon R-II School is legally responsible for the safety of its students during the school day. Therefore, the building principal will establish procedures to validate requests for early dismissal to assure that students are released only for proper reasons and only to authorize person(s).

Staff members shall not excuse any student from school prior to the end of the school day, or into any person's custody without the direct prior approval and knowledge of the building principal or his/her designee. In keeping with these precautions, the following procedures will be followed.

- The building principal or his/her designee shall not excuse a student before the end of the school day without a request for early dismissal by the student's parent or guardian.
- Telephone requests for early dismissal of a student shall be honored only if the caller can be positively identified as the student's parent or guardian.
- Children of single parent families will be released only upon the request of the custodial parent, i.e., the parent who the court holds directly responsible for the child and who is identified as such on the school record.

Additional precautions may be taken by the school administration appropriate to the age of students and as needs arise.

***TARDIES**

Tardiness creates a classroom disruption by interrupting the educational process. Thus, tardies will be considered as a disciplinary referral and will be dealt with accordingly. Tardiness to school will be considered no later than **8:10**. Anytime a student is late to school past 8:10, absence hours will be used.

Tardies are those that occur when a student arrives in a classroom after the classroom tardy bell. Students will be allowed two (2) tardies per semester with no penalty. The third tardy during a given semester and every tardy thereafter, will result in a 1/2 hour detention to be served during zero hour, 9th hour, or Saturday school. After a total of seven (7) tardies in a given semester the student will immediately lose the privilege of participating in any extra-curricular or co-curricular activities until they have made up the prescribed number of hours.

YEARLY PERFECT ATTENDANCE CRITERIA

- ✓ No more than a total of six hours absent accumulated throughout the school year.
- ✓ No more than three consecutive hours absent.
- ✓ No more than a total of 8 tardies accumulated throughout the school year.
- ✓ Hours missed for immediate family members' funeral will be excused as follows:
 - 5 days excused for parents, siblings or guardians
 - 3 days excused for grandparents, aunts, uncles or cousins

QUARTERLY PERFECT ATTENDANCE CRITERIA

- ✓ Students may not miss any class time. Any time missed will result in forfeiture of quarterly perfect attendance party.

***CELL PHONES**

Developments in cell phone technology in recent years have resulted in enhanced communication opportunities. However, the use of cell phones in schools poses increasing risks of school disruptions, bullying, criminal activity, and academic dishonesty. The uses of cell phones are not allowed during the school day and must be turned off and/or put away. The use of a cell phone to call a parent/guardian or receive a call from a parent/guardian, in a non-emergency situation is not allowed without prior permission from an administrator. If the student or parent needs to call one another please use the school phone. Students who violate this policy are subject to the Tina-Avalon R-II School District Discipline Policy.

***MOVIES**

Movies will be shown periodically throughout the year by the staff at Tina-Avalon R-II. Permission slips will be sent home to get permission for students to view any movies that contain controversial subject matter.

Any student who carelessly or intentionally defaces or damages school property shall be required to pay for all damages and may be subject to additional disciplinary action. A copy of the student discipline code follows in this handbook.

Failure to pay for damages shall result, after due notification of parent or guardian, in the student being suspended from school with readmission only upon application to the Board of Education.

According to state law, parents or guardians of juveniles under the age of 18 are responsible for vandalism, loss or damage caused by their children up to an amount of \$2,000.00. In default of payment, the case shall be reported to the proper legal authorities or filed in small claims court.

Homework is an opportunity for parents to really become involved with the child's education. Parents can help by providing the right atmosphere for studying. Some of the following are suggested:

1. Limit television watching.
2. Provide a good work area. This means good lightning, a desk to work at, the tools needed, and a quiet area in which to work.
3. Agree on a regularly scheduled "homework time".

Students serving an in-school suspension or out-of-school suspension will be allowed to do assigned work/homework during the time they are suspended. Parents must pick up homework. Said work must be turned in during the first day following the period of suspension in order to be received for credit.

Tests/quizzes will be made up at a time that is convenient for student and teacher in a timely manner. For students attending a school sponsored activity, the student will be required to turn in their said work at the discretion of the teacher. If a student is sick, the student will have one day for every day missed to turn in their homework.

CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES PROGRAM

The Board of Education believes that student activities sponsored by the Tina-Avalon School are a vital part of the total educational program and should be used as a means of developing wholesome attitudes and good human relations, as well as knowledge and skills. The Board further recognizes that not all of the district's goals and objectives can be met in formal classroom study. Therefore, the district's extracurricular activities program provides opportunities for student participation in activities designed to meet leisure, recreational, social and emotional interests and needs.

Extracurricular activities will be those organized and supervised activities conducted under the jurisdiction of the school district which primarily involve students in activities occurring outside academic class time, for which no units of credit are awarded. These activities shall provide for individual, small group and/or student body participation.

All extracurricular activities must have a duly appointed sponsor, advisor or coach. It shall be the duty of such individuals to attend all meetings, functions, or practices of the various groups, to advise students regarding the proper conduct of affairs, and to keep the building principal informed regarding activities. No team or other group of pupils shall leave the Tina-Avalon School for any interscholastic game or interschool activity unless accompanied by a coach, director or someone delegated by the principal who shall remain with the team or group until it returns to the school; and the team or group shall at all times be subject to the authority of the person(s) accompanying them. The coach, director or delegated person in charge shall remain at school until all individuals have been picked up by a parent or designee.

All participants are required to travel with the team or organization to the extra-curricular event.

With prior approval, an exception may be made by an administrator for situations that may arise.

The following are to be considered extracurricular activities:

- ✓ Student government and its related activities and organizations
- ✓ Music festivals or contests, speech contests, debates, and dramatic contests
- ✓ Organized activities which are part of interscholastic athletics
- ✓ All types of interscholastic/inter-school competition
- ✓ Cheerleading activities (Tryouts – 7th, 8th and 9th grade students will be allowed to try out for the junior high cheerleading squad. 10th, 11th & 12th grade students will be allowed to try out for the high school squad. The administration may, at their discretion, allow 9th grade students to try out for the high school squad if circumstances warrant, in order to allow for participation of the maximum number of students.)
- ✓ National Honor Society (In order to remain a member in good standing of the National Honor Society, the Tina-Avalon Chapter of the National Honor Society will abide by all procedures and regulations dictated by the most current National Honor Society Handbook)
- ✓ Special interest clubs

Any program of extracurricular activities in the Tina-Avalon School District shall be governed by the following guidelines.

- ✓ Student participation should be on a voluntary basis
- ✓ Students may belong to and take part in all extracurricular activities for which qualified, regardless of race, sex, religion, handicap, or national origin.

- ✓ Students in interscholastic athletics and cheerleading must comply with all regulations established by the district and the Missouri State High School Activities Association (MSHSAA).
- ✓ Students in interscholastic athletics and cheerleading must not show any visible body art or tattoos. If the student has mentioned items they must wear sleeves or a tape patch over area of discretion in order to participate.
- ✓ Student activity funds should be used for purposes that benefit the student body of the school.
- ✓ Student activity programs should develop feelings of student loyalty, pride and responsibility to the school.
- ✓ All extracurricular activities shall be scheduled in advance with the building administrator and booked on the school calendar. The request for scheduling must be in writing on the forms provided and include date, time, place and sponsor of activity.

The Board will monitor the district's extracurricular activities program through the authority it extends to the superintendent and principal, to authorize and administer it in keeping with this policy and Board approved regulations.

Any student, who represents the school in any type of extra-curricular activity, must be present for at least one school session (morning or afternoon) on the day when the activity is held, unless otherwise excused by the principal.

EXTRACURRICULAR CODE OF CONDUCT

The Tina-Avalon (District) extracurricular programs are intended to supplement the educational experience. Participation in extracurricular activities is a privilege, not an entitlement. Participants are expected to conform to a higher standard of conduct than is applicable to non-participants. Participants serve as representatives and leaders of the school and are expected to set a positive example for other students.

The Tina-Avalon District has established this Extracurricular Code of Conduct ("Code of Conduct") so that students and their parents/legal guardians will be aware of the behavioral expectations of those students who participate in extracurricular activities at District. The effective cooperation of parents/legal guardians and their participation in the enforcement of this Code of Conduct are vital to ensuring that students follow the rules and avoid behaviors that are damaging to the students themselves and the community.

Therefore, every participant must abide by the following rules.

1. A participant must meet the eligibility requirements set out by the Missouri State High School Activities Association (MSHSAA) and must conform to all applicable MSHSAA rules and regulations.
2. A participant must meet any additional eligibility requirements as determined by the local area athletic conference or academic conference and must conform to all applicable conference rules and regulations.
3. A participant must conform to District eligibility requirements, rules, regulations and standards for participation as set forth below and as set forth in District policies and regulations.
4. A participant must be a good and credible school citizen as set forth below and as set forth in District policies and regulations.
5. **ALL OTHER STUDENT DISCIPLINE POLICIES REMAIN IN EFFECT:** All policies that apply to the regular school day apply also to extracurricular activities. Thus, a student who violates District

or school discipline policies, as detailed in the applicable parent/student handbook and/or Board policy, is subject to disciplinary action in addition to the consequences for misconduct set forth in this Code of Conduct.

6. **SPONSOR/COACH-IMPOSED RULES:** The management of an extracurricular activity is the responsibility of the coach or sponsor who is in charge of the selection of participants and the extent of their participation. Each coach/sponsor may also establish additional written guidelines for their activities. These guidelines shall be presented orally and in written format. A copy of such guidelines shall be kept on file with the building principal.

CODE OF CONDUCT: Students desiring to participate in programs covered under this Code of Conduct, as well as parents, must sign a card stating they are aware of, understand, and agree to abide by the rules of conduct that apply to these activities.

7. **GOOD CITIZENSHIP:** A participant must demonstrate **good citizenship in the school and community**. In addition to complying with this Code of Conduct, participants must conform to all general school rules and regulations and rules established by the coach/sponsor for the activity in which he/she is participating. Participants must also comply with the laws of the community.
 - a. A participant shall not be eligible to participate in any extracurricular activity while serving an out-of-school suspension. A student who receives an in-school suspension will not be allowed to participate until the entire suspension has been served.
 - b. A participant who withdraws from school following the administration's decision to impose a long-term suspension shall not be eligible to participate in extracurricular activities for 365 days from the date of withdrawal.
 - c. A participant being removed from any activity for disciplinary reasons will be brought under advisement of the activities/athletics director, sponsor in charge and/or principal; and appropriate action will be taken, which may result in exclusion from other activities in which the student is a participant.
 - d. A participant removed from class for misbehavior on the day of a scheduled event may be ineligible to participate in the event. The decision will be solely within the discretion of the principal or principal's designee.
8. **DEFINITIONS:** For the purposes of this Code of Conduct, the following specific definitions will apply. Students and their parents/legal guardians are expected to understand these definitions. Ignorance of these definitions will not be a defense to a violation of this Code of Conduct.
 - i. **Drugs/alcohol:** The term "drugs/alcohol" shall include any controlled substance, illegal drug, narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, ecstasy, item described as a controlled substance under Missouri Revised Statutes or federal law, prescription drug that is outside of its prescribed packaging or that is possessed by someone other than the patient to whom it is prescribed, alcohol (defined as the intoxicating agent in beverage alcohol, ethyl alcohol or other low molecular weight alcohols including methyl and isopropyl alcohol, beer, wine, and/or hard liquor), drug or alcohol paraphernalia, look-alike drugs, items represented to be a drug or which, by markings or other characteristics, appear to be a drug.

ii. **Arrest, Charge, or Conviction:** These terms refer to any of the following actions: being taken into custody by a law enforcement officer; being the subject of charges, an indictment, entry of an Alford plea; being convicted in a court of law; pleading guilty or nolo contendere; or pleading guilty to a lesser or alternative charge, regardless of whether such charge concerns drugs/alcohol.

iii. **Possession:** The term “possession” shall be broadly defined and liberally construed as it relates to drugs/alcohol. Consistent with this broad and liberal definition, possession shall include: holding or having the drugs/alcohol on one’s person or in or on one’s personal property (such as cars, bags, coats, clothes, etc.), regardless of length of time.

This definition is subject to the exceptions designated below; however, those exceptions shall be strictly construed.

9. **DRUGS/ALCOHOL RULES:** Students must comply with the following specific rules prohibiting the possession, use, distribution, and sale of drugs/alcohol.

a. ***A participant must not possess or use drugs/alcohol.*** A participant will be in violation of this rule if the use or possession occurs – regardless of whether the student is on school property, at a school-sponsored event, or in-or out-of the student’s activity season – and if any one of the following exists:

(1) The use or possession is observed by a law enforcement agency official; or

(2) The use or possession is observed by school personnel.

b. ***A participant must not distribute or sell drugs/alcohol.*** A participant will be in violation of this rule if sale or distribution (i.e., transfer to another person) occurs – regardless of whether the student is on school property, at a school sponsored event, or elsewhere in-or out-of the student’s activity season – and if any one of the following exists:

(1) The sale or distribution is observed by a law enforcement agency official; or

(2) The sale or distribution is observed by school personnel.

c. ***A participant must not be arrested for, charged with, or convicted of an offense that relates to or involves drugs/alcohol.*** A participant will be in violation of this rule if the student is arrested for, charged with, or convicted of any offense that relates to the possession of, consumption of, sale or distribution of, drugs/alcohol.

(1) This provision is not limited to Missouri offenses. Out-of-state offenses will also qualify as a violation of this policy.

(2) Students who are arrested for or charged with an offense that relates to or involves drugs/alcohol and who subsequently are formally acquitted by a court of law may notify the Appeals Committee and may be relieved by the Appeals Committee of punishment under this Code of Conduct unless the student has been shown to have otherwise violated this Code of Conduct. Students and their parents/legal guardians must remember that the standards of proof applicable in the criminal justice system do not apply in the school setting. Lesser standards of proof are applicable in the school setting. ***FOR EXAMPLE, a student may be acquitted of the criminal charge of driving under the influence of alcohol,***

but he/she may remain in violation of this Code of Conduct if he/she was observed by adults or police officers in possession of alcohol.

(3) Students and their parents/legal guardians should be aware that under Missouri criminal laws, persons under age 21 may be arrested for and charged with possession-related crimes even if they are not actually observed using drugs/alcohol. Moreover, these “zero tolerance” laws forbid minors from consuming drugs/alcohol, regardless of the amount. The mere use of alcohol or drugs is sufficient to support charges and a conviction under law.

d. There will be no penalty to a participant who requests help in the form of assessment or treatment for substance or alcohol abuse before the District receives a report of the participant’s alleged violation of this Code of Conduct. However, a participant who engages in conduct that violates this subparagraph, after requesting assessment or treatment, will be subject to the consequences of this Code of Conduct.

e. **Consequences for Violation:** A student who violates the drugs/alcohol provisions under this Code of Conduct shall be subject to the following consequences:

- **First Violation During High School Career:**

1. The student shall be suspended from 40% (rounded up) of all scheduled activities/events/ contests/performances in all MSHSSA recognized activities and other scheduled extracurricular events/contests/performances that the participant is involved in for the next 365 days.

2. The student shall be entitled to reduce this suspension from 40% to 20% (rounded up) if the student takes the following step:

The student must complete a total of 20 hours of community service, which shall include service designed to benefit the District itself, another governmental entity, or a non-profit community group. The student must submit a service plan to be approved by the school principal. The student must complete the service and provide verification of completion. The community service hours will not be counted concurrently with community hours served for court or another entity.

NOTE: Students who fail to complete the required steps in the 40% to 20% reduction program will remain subject to the 40% consequence.

- **Second or Additional Violations During High School Career:** The student will be suspended from all extracurricular activities for 365 calendar days. Each subsequent violation will result in an additional 365 calendar day suspension.

f. **Exceptions:** The drug/alcohol provisions exclude the use, possession, or transfer of drugs/alcohol if, and only if, one of the following conditions is met:

- (1) The conduct occurs as part of a family dinner or family celebration at which the student’s parent(s)/legal guardians are present.

- (2) The conduct occurs as part of a bona fide religious ceremony as recognized under federal law. ***NOTE: Only bona fide religious beliefs are within this exception. Students will not be permitted to simply claim that they are attending a party on a Friday or Saturday***

night with their peers in furtherance of their religious beliefs. Lying or falsifying information regarding religious beliefs is inappropriate and unethical and will not be tolerated.

10. **OTHER PROHIBITED CONDUCT:** Participants must not engage in the following additionally prohibited conduct:

a. A participant may not cause or attempt to cause physical harm to another person. A participant who attempts to cause or causes physical harm to another person may be suspended from the scheduled events/contests/performances in all MSHSSA-recognized activities and other scheduled extracurricular events/contests/performances that the participant is involved in for up to 365 days from the date of the incident.

b. A participant must conform to the school discipline policy. Failure to abide by school discipline policy, except as otherwise provided above, may result in a suspension from the scheduled events/contests/performances in all MSHSSA-recognized activities and other scheduled extracurricular events/contests/performances that the participant is involved in for up to 365 days from the date of incident.

c. A participant may not be arrested for, charged with, or convicted of a felony or misdemeanor under either criminal law or juvenile law, regardless of whether the offense occurs on or away from school property. Such conduct may result in a suspension from the scheduled events/contests/performances in all MSHSSA-recognized activities and other scheduled extracurricular events/contests/performances that the participant is involved in for up to 365 days from the date of the incident.

d. A participant must not use tobacco, and must not have on one's personal property (such as cars, bags, coats, clothes, etc.), any tobacco products, including chewing tobacco, tobacco that is smoked, tobacco paraphernalia, look-alike tobacco products or paraphernalia, or herbal or clove cigarettes, even if participant is of legal age. Such conduct may result in a suspension from the scheduled events/contests/performances in all MSHSSA-recognized activities and other scheduled extracurricular events/contests/performances in all MSHSSA-recognized activities and other scheduled extracurricular events/contests/performances that the participant is involved in for up to 365 days from the date of the incident.

d. Notwithstanding any provision of this Code of Conduct or any other District policy, the District reserves the right to enhance or reduce the penalties associated with a violation of this Code of Conduct based upon the nature, severity, and frequency of the offense(s).

11. **ATHLETIC PRACTICES:** Athletic participants **will not** be allowed to practice with their team during an extracurricular suspension. Also, the athletic participant will not be permitted to sit or travel with the team/group or wear team/group insignia in the events/contests/performances during the extracurricular suspension.

12. **APPEAL PROCEDURES:** The procedures below are provided for the sole purpose of preventing extracurricular suspensions based upon inaccurate or incomplete information. These procedures are **not** intended to provide the participants with an opportunity to (1) avoid extracurricular suspensions imposed for prohibited acts that they have actually committed, or (2) ask administrators for leniency when an appropriate consequence has been imposed for conduct that has actually occurred. Nor are they intended to suggest that participation in extracurricular activities is an entitlement rather than a privilege. Participation in extracurricular activities remains, at all time, a privilege.

- a. **OPPORTUNITY TO BE HEARD BEFORE SUSPENSION:** A participant should generally be advised of the reason for the extracurricular suspension, and provided an opportunity to respond, prior to the imposition of the consequence. When it is necessary in the judgment of the activities/athletic director or principal to suspend a participant from an extracurricular activity before advising the participant of the reason for such suspension or removal, the participant should be advised of the reason and given an opportunity to respond within a reasonably prompt time after the consequence has been imposed.
- b. **APPEALS AFTER SUSPENSION IMPOSED:** The term “appeal,” when used below, shall refer to the opportunity for the student to tell his/her side of the story – either verbally or in writing – to the person or persons who are hearing the appeal. The person or persons hearing the appeal have the right to impose time limits and other regulations regarding the respective appeal.
- i. **FIRST APPEAL:** Participants may appeal an extracurricular suspension imposed by the athletic/activities director to the building principal.
- ii. **SECOND APPEAL:** Participants may appeal an extracurricular suspension imposed or affirmed by the building principal to the building-level Appeals Committee. The Appeals Committee shall be appointed at the beginning of each school year and shall consist of one administrator other than the principal, one coach/activities sponsor, and one additional teacher.
- iii. **THIRD APPEAL:** Participants may appeal their extracurricular suspension affirmed by the Appeals Committee to the Superintendent of Schools.
- iv. **FINAL APPEAL:** Participants may appeal an extracurricular suspension to the Board of Education. The decision of the Board of Education shall be final.

* During the pending of an appeal, the extracurricular suspension will remain in full force and effect.

13. **STUDENT RESPONSIBILITY:** Each student is responsible to notify the school of any and all situations that would affect his/her eligibility under the above standards. If the student does not notify the school of the situation prior to the school’s discovery, then the student shall be ineligible for up to 365 days from discovery, pending review by the Board of Directors.

New academic standards for MSHSAA state those students in grades 9-12 must have earned a minimum of 3.2 units of credit the preceding semester of attendance. Tina-Avalon R-II students must pass 7 classes to meet this requirement.

Grades are checked at mid-term of each quarter and at the end of each quarter.

PARTICIPATION IN SCHOOL ACTIVITIES IS A PRIVILEGE AND NOT A RIGHT.

PARTICIPANTS ARE REQUIRED TO COMPLY WITH ALL OF THE ABOVE-LISTED REQUIREMENTS TO BE ELIGIBLE FOR PARTICIPATION IN EXTRACURRICULAR ACTIVITIES.

PARENT/TEACHER CONFERENCES

Parent conferences are regularly scheduled during the school year. Please check the current school calendar for the scheduled conference time(s) for this year. Teachers and parents are encouraged to

request additional conferences at any time during the year when there are questions or concerns about a child's progress in school.

ASSESSMENT PROGRAM

The Board of Education supports the establishment of a district-wide educational assessment program as one indication of the success and quality of the total education program in the school district. In the case of individual students, standardized tests, in combination with other criteria, can provide an indication of student achievement.

The purpose of the district-wide assessment program is to facilitate and provide information for the following:

1. *Student Achievement* - To produce information about relative student achievement so that parents/guardians, students and teachers have a baseline against which to monitor academic progress. Within the limitations of group testing instruments, the information should be useful to serve as a validation device for other measures of student progress.
2. *Student Counseling* – To serve as a tool in the counseling and guidance of students for further direction and for specific academic placement.
3. *Instructional Change* – To provide data which will assist in the preparation of recommendations for instructional program changes to:
 - a. Help teachers with instructional decisions, plans and changes regarding classroom objectives and program implementation;
 - b. Help the professional staff formulate and recommend instructional policy; and
 - c. Help the Board of Education adopt instructional policies.
4. *School and District Evaluation* – To provide indicators of the progress of the district toward established goals.

In the continual effort to improve the effectiveness and efficiency of instruction, the assessment program will address the types of tests administered, include a description of how assessment results will be used and disseminated as well as identify areas for instructional improvement. The district will implement the components of the Missouri Assessment Program in order to monitor the progress of all students in meeting the Show-Me Standards, as set forth by the Missouri State Board of Education. The district's assessment program shall test for student competency in the subject areas of English, reading, language arts, science, mathematics, social studies and civics.

The program should be developed primarily for furnishing needed information to decision makers, including the Board, administrators, teachers, parents/guardians and students. The Board, in cooperation with the administrative and instructional staff, will annually review student performance data and use this information to evaluate the effectiveness of the district's existing curricular and instructional programs, making adjustments as necessary.

The needs of these various groups shall be clearly identified, and the assessment program shall be limited to obtaining that information which is needed and useful.

There shall be broad-based involvement in the development of the assessment program and its implementation. Instructional staff will be given training and responsibilities in coordinating the program. In planning, every effort will be made to see that testing contributes to the learning process rather than detracts from it. Efforts will also be made to incorporate necessary culture-free and culture-fair tests to assure that measurements are reasonably accurate.

In keeping with recommendations and regulations from the Department of Elementary and Secondary Education concerning assessment programs, the district will focus on the administration of criterion-referenced tests in assessing basic competencies. The district will also incorporate traditional and performance-based test-taking strategies in the instructional process.

Confidentiality will be maintained with regard to the individual test scores and other information derived from the district's assessment program. Individual student scores will be discussed with parents/guardians upon request. Tabulated results of standardized tests will be made available to authorized school personnel as interpreted by a trained professional staff. These tabulated results may only be released as required by law.

Districts will comply with all assessment requirements for students with disabilities mandated by federal and state law, including the Individuals with Disabilities Act (IDEA).

READING ASSESSMENT AND REMEDIATION GUIDELINES

1. As a result of SB319, school districts must assess and determine the grade-level reading ability of students in grade 3 and students in grades 4-6 who transfers in during the school year. This determination must be made within 45 days of the end of the school year. The assessment is NOT required for students who have already been determined to be reading at or above grade level. Students with disabilities or limited English proficiency may be exempted from the mandatory reading assessment.
2. With input from parents, school districts must develop an individualized reading plan to be implemented during grade 4, for any third-grader who was determined to be reading below second grade level. Each district will determine the content of students' reading improvement plans. The reading plan MUST include, at a minimum "30 hours of additional reading instruction or practice outside the regular school day during the fourth grade year." Such instruction may be provided during the summer before grade 4 or during the regular school term.
3. After fourth grade, if a student is determined to be reading below third-grade level, the student shall be required to attend summer school to receive reading instruction. At the end of such summer school the student shall be given another reading assessment. If such student is determined to be reading below third-grade level, the district shall notify the student's parents or guardians, and the student shall not be promoted to fifth grade. No student shall be denied promotion more than once solely for inability to meet the reading standards set out in this section.

Procedures for evaluation:

- Minimally, school districts must have systematic assessment procedures in grade 3 to determine the reading level of students. Assessment is also required for students in grades 4-6 who transfer in during the year, unless they have already been determined to be reading at or above grade level.
- Reading Improvement Plans must be implemented for identified students in grades 4-6.
- (1) Students in grade 4 who are reading below third-grade level will be required to have summer reading instruction; they must be assessed again at the end of summer school. (2) Students in grade 3 who are reading below second-grade level MAY be required, by local policy, to attend summer school as a condition for promotion to fourth grade.
- Mandatory retention in grade 4 will be applied for students who are still reading below third-grade level at the end of summer school (and who don't qualify for an exemption).

Therefore, the Board will provide career education for students at all levels of instruction. Career education in the elementary schools shall consist of career awareness and the exploration of career opportunities in various fields. At the secondary level, it will incorporate career exploration, career guidance, and vocational training opportunities, with the latter designed to equip students to enter post-secondary training for occupational areas and/or enter specific occupations directly out of high school.

VOCATIONAL EDUCATION

Vocational training programs shall be an integral part of the comprehensive high school concept in the Tina-Avalon School. Efforts will be made to keep vocation programs relevant to job requirements and reflective of area needs, as well as being geared to the current and future technological and economic conditions. INSTRUCTIONAL MEDIA CENTER/SCHOOL LIBRARY

The Board believes that instructional media centers/libraries are a fundamental part of the educational process. The availability of many materials in a variety of formats presents students and teachers the possibility of selecting the media best suited for individual need, mode of learning, and district objectives.

Therefore, the schools of the Tina-Avalon R-II School District shall maintain instructional media centers/libraries where students and staff members are exposed to a variety of books, periodicals, and references in printed form as well as to a variety of other communications materials. Opportunities will be provided for reading, listening and viewing activities, to prepare instructional materials, and to work individually in small groups or in class groups.

Instructional media center/library materials purchases will be made annually in accordance with budgetary provisions and procedures for the selection and adoption of such materials. The district shall strive to meet the school media standards as prescribed by the Missouri Department of Elementary and Secondary Education.

LIBRARY MEDIA CENTER

The library will be open from 8:00 a.m. until 3:00 p.m. Monday through Friday of each month.

STUDENT TRANSPORTATION SERVICES

The Board, in accordance with state law, may provide free transportation for eligible students attending the Tina-Avalon R-II School. The superintendent shall ensure that the transportation services of the district meet all of the guidelines established by the Missouri Department of Elementary and Secondary Education (i.e., Missouri Pupil Transportation Administration Handbook, Missouri Minimum Standards for School Buses, Missouri Certified Bus Driver Instructor's Manual, and Missouri School Bus Driver Manual) as well as the policies that pertain directly to the qualifications of bus operators and operational procedures adopted by the Board of Education.

Pupil transportation is a necessary auxiliary service and an integral part of the total educational program of the district. The time students spend on the bus exerts an important influence on the physical and mental condition that students bring to the classroom. Therefore, the major objectives of the pupil transportation program are as follows.

- ✓ Provide the means by which students can reach school under safe and healthful conditions.
- ✓ Provide for an efficient and economical transportation system.
- ✓ Adapt transportation to the requirements of the instructional program.

Only those students who meet eligibility requirements by means of residence will be permitted to use school bus transportation for the purpose of travel to and from school. All handicapped children in the Tina-Avalon R-II School District will be provided free transportation between home and the special education programs provided by the district.

Buses carrying school children will be considered extensions of the school environment. Any student whose conduct on a school bus is improper or jeopardizes the safety of other students may have his right to school bus transportation suspended for such period of time as deemed proper by the superintendent, building principal or his/her designee. Uniform rules of conduct and disciplinary measures will be enforced.

STUDENT CONDUCT ON SCHOOL BUSES

The safety of students during their transportation to and from school is a responsibility, which they and their parents/guardians share with the bus drivers and school officials. The Board wants each student to know what conduct is expected when waiting for and riding on a school bus. Therefore, the rules of student conduct will be issued to all students at the beginning of the school year and to new students upon enrollment.

Students who fail to observe these rules will be subject to disciplinary action since their failure to do so may affect the safety of others. The driver will report a student who misbehaves to the principal on the same school day if the incident occurs in the morning or the next morning if it occurs in the afternoon. Failure to follow bus rules and regulations may result in suspension of the privilege of riding the bus.

Excessively dangerous behavior will result in immediate action.

BUS REGULATIONS

Riding the bus is a privilege and we expect your child to respect the bus driver and other students who ride the bus. Bad manners or disrespect will not be tolerated. Your child's safety and the other students' safety are our greatest concern.

1. The bus driver is in charge and pupils must always obey the driver.
2. Students must be on time. The bus cannot wait for those who are tardy. The bus will wait one minute at the bus stop and then proceed on its regular route. If your child is not riding the bus in the morning, please notify the bus driver or wave him/her on so he/she does not wait for your child. **NEVER STAND IN THE ROADWAY WHILE WAITING FOR THE BUS!**
3. Unnecessary conversation with the bus driver is prohibited.
4. Students must not extend their arms or heads out of the bus windows at any time.
5. Classroom conduct is to be observed by all students while riding the bus. Conversations should be between the students in the same seat and not across the aisles.
6. Students must remain seated until they arrive at their destination.
7. Students must not try to get on or off the bus or move about within the bus while it is in motion.
8. Smoking or tobacco products are not allowed on the bus at any time.
9. Students must observe the directions of the bus driver when leaving the bus. Always pass in front of the bus when leaving the bus. **NEVER WALK BEHIND THE BUS!**
10. The bus driver has the authority to arrange assigned seating on the bus if he/she sees fit. Students in less desirable seats may move to a second assigned seat for added comfort after the passenger load is lightened and after permission from the driver.
11. Any student who rides the bus and needs to change his/her normal transportation procedures must have written permission by the parent/guardian or you can call the school office.
12. Any damage to the bus must be reported to the driver.
13. Students must not throw waste paper or other rubbish on the floor or out of the bus.
14. No food or beverages, other than school lunches, are allowed on the bus.

Failure to follow regulations may result in suspension from riding the school bus.

STUDENT ACTIVITY BUS TRIPS

The school has the responsibility for transporting students to and from extra-curricular activities. All participants are required to travel with the team or organization to the extra-curricular event. With prior approval, an exception may be made by an administrator for situations that may arise.

There are two acceptable methods of transporting students from activities:

1. Student rides the bus.
2. Parent/guardian accepts responsibility and signs the student out on the sign-out sheet. If for some reason you want your child to ride home with someone else, you must fill out the required form in the principal's office. If you do not have the form on file in the office, the parent is required to call an administrator.

Any student whose parent fails to sign the "transportation from" portion of the list will not be allowed to participate in the next contest.

STUDENT AUTOMOBILE/VEHICLE USE

Driving and parking on school property are privileges granted by the Board of Education to persons who have reason to be in the school or on school property. Students are expected to use all acceptable courtesies and safe driving practices on and around school property.

Building principals shall establish rules and regulations necessary for the safe operation and parking of automobiles, trucks, motorcycles and other vehicles on school property.

Students are not to move or be in cars during the school day without permission from school officials.

STUDENT VEHICLE REGULATIONS

The vehicle is to be parked in the south parking lot of the school. Speed limit on school ground is 10 M.P.H. Any careless actions, speeding, spinning tires, etc., will result in the loss of this driving privilege. Students who drive to school and wish to leave early must have a written request from their parents stating what time they wish to leave and where they are going. Immediate family members, (brothers, sisters) should also be mentioned in the note if they are leaving with you. Under normal circumstances, students other than siblings will not be allowed to leave school together while school in session.

SCHOOL BOARD RECOMMENDED GUIDELINES

Students representing Tina-Avalon R-II School in any extracurricular activity are expected to abide by all existing school rules and regulations and local, state, and federal laws. Their behavior should at no time reflect misconduct or disrespect toward themselves or the school.

FIELD TRIPS AND EXCURSIONS

The Board believes that field and activity trips often enhance the program of instruction and add much to the education of a student. The superintendent or delegated representative may authorize trips, when the activities contribute substantially to the achievement of desirable educational goals. All field trips should be planned with an educational purpose and in regard to a unit of study. To be educationally beneficial, a field trip requires thoughtful selection, careful advance preparation of the class, and opportunities for pupils to assimilate the experience during and at the conclusion of the trip. To this end, teachers and the principal will be expected to consider the following factors in the selection of field trips:

- ✓ Value of the activity to the particular class group or class groups
- ✓ Relationship of the field trip activity to a particular aspect of classroom instruction
- ✓ Suitability of the activity and distance traveled in terms of the age level of students
- ✓ Mode and availability of transportation
- ✓ Cost of field trip or excursion

Due to the increased cost of transportation, all field trips should be carefully scrutinized by the administration. Each individual class pays the cost of the field trip with the proceeds from fund raising projects.

All parents of students who are eligible to participate in field trip shall be notified of the activity. If eligible students are not to participate in the activity due to parental wishes, notice from the parent must be sent to the sponsor of the activity.

SENIOR TRIP

Students in violation of the above rules and recommendations are subject to loss of extra-curricular activities and privileges.

For serious infractions of school regulations on extracurricular trips by students, the sponsor will notify the administration and arrangements will be made for students to be picked up from the event and returned home as soon as possible. Then disciplinary action will be taken according to school board policy.

ADDRESSES, PHONE NUMBERS, AND EMERGENCY CONTACT INFORMATION

It is important to have as much up-to-date information as possible to be able to contact each child's parent in case of an emergency. If your home address or phone number or emergency contact information changes during the school year, please notify the school at the time of the change.

HEALTH AND IMMUNIZATIONS

The State of Missouri requires that children entering school for the first time in Missouri must receive the basic immunizations prior to school entrance. Detailed information is handed out during Kindergarten registration and also upon registration of a transfer student.

Vision, dental and hearing screenings are given during the school year. Parents/guardians will be notified if there are any concerns that require a referral to a physician.

MEDICATIONS

If under exceptional circumstances a child is required to take oral medication during school hours and the parent cannot be at school to administer the medication, the principal's designee will administer the medication in compliance with the regulations that follow:

Prescription and over-the-counter Medications—The medication shall be in the original container and labeled with the physician's prescription in the case of a prescription drug.

Parents shall authorize school personnel to give medication. Forms are available in the office for parents to complete when their child is to be given medication at school. This authorization may also be in the form of a note to the school acknowledging the parent's approval, dosage, times and amounts, date prescribed, name of medicine, purpose of medicine, possible side effects, and the termination date for administering the medication. It is suggested that there be enough dosage sent to school for the day, not the entire amount of the prescription.

Procedures-The principal's designee will follow the procedure listed below regarding the dispensing of personal medication:

- **Inform appropriate school personnel of the medication
- **Keep a record of the medication administered
- **Return unused medication to the parent or dispose of it if the parent requests disposal

The school district retains the right to reject requests for administering medication. The parent/guardian of the student must assume responsibility for informing school personnel of any change in the student's health or change in medication.

PARENTAL RESPONSIBILITY

The primary responsibility for the education of children belongs to parents. Even though this responsibility is shared with the school, the parent's responsibility remains paramount to their child's success in school. Children emulate their parents. They follow what you do rather than what you say. Therefore, the example you provide in the home is a major factor in building your child's intellectual, cultural, and moral attitudes.

In addition to providing a good example, here are some other ways you can help:

1. Provide proper diet, exercise, and sleep for your child.
2. Be responsible for your child's cleanliness, personal hygiene, and appropriate dress.
3. Provide a proper place at home for your child to study and encourage conscientious completion of assignments.
4. Insist that your child obey the regulations and principles of good behavior.

5. Encourage the development of your child's individual talents and interests.
6. Keep the school informed as to your child's special needs.
7. Read all school communications.

STUDENT WELFARE-SECLUSION AND RESTRAINT

To promote safety and prevent harm to all students, school personnel, and visitors in the school district this policy is to treat all students with dignity and respect in the use of discipline and behavior management techniques. All school personnel will have clear guidelines of the use of seclusion, isolation, and restraint on school district property or at any school district function or event. This policy will promote retention of teachers and other school personnel by addressing student behavior in an appropriate and safe manner. It is also to promote parent understanding about state guidelines and district policies related to the use of discipline, behavior management, behavior interventions and responses to emergency situations. It will promote the use of non-aversive behavioral interventions.

LIFE-THREATENING FOOD ALLERGY

Tina-Avalon R-II School District is committed to providing a safe school environment for all students. The school recognizes that food allergies, in some instances, may be severe and even occasionally life threatening. Tina-Avalon R-II School has created this policy to reduce the likelihood of severe allergic reactions of students with known food allergies while at school, and to increase the likelihood that appropriate medical treatment is available in the case of an allergic reaction. The Tina-Avalon R-II School's aim is to help students learn how to manage their food allergies while providing an environment where the risk of exposure is reduced and emergency support is available. The school cannot achieve this goal alone and student and family involvement are critical. Ultimately the primary responsibility for reducing the risks associated with food allergies rests with the students and their parents. The School's policy is as follows:

School's Procedures

- Information pertaining to the student's allergies will be shared with faculty and staff who have contact with the student, but otherwise will be kept as confidential as possible.
- Based on information from the student's parents and doctor, the school nurse will develop a Food Allergy Health Plan which lists the student's food allergies, emergency treatment protocols and contact information. These health plans will be kept in the student's health file in the nurse's office. Copies will be distributed to food service personnel, classroom teachers of those students with food allergies, and other faculty/staff on a need to know basis. Plans will be updated yearly or as needed.
- Tina-Avalon R-II School will provide food allergy and anaphylaxis training for faculty, staff, and coaches as needed. This training will include information on how to recognize an allergic reaction and respond appropriately.
- Tina-Avalon R-II School will work with the food service director to provide food in the cafeteria that all students may enjoy. In the case of a student with multiple or unusual allergies, however, Tina-Avalon School may require the student/family to provide lunch and snacks to ensure the student's safety.

PARENT/STUDENT RESPONSIBILITY

- Parents of students with life-threatening allergies must provide Tina-Avalon R-II School with emergency medications and a written medical treatment protocol for their students addressing allergy-related events. The protocol and medication must be provided to the school nurse prior to the beginning of each school year. The school nurse will maintain the medication and information according to the current emergency medical

treatment protocol. In elementary school, student medications will be kept in the nurse's office and if necessary, in the student's classroom. In the Junior High and High School, a student may carry and administer their own Epi-Pen with written permission from their doctor and parents. In this case, it is the family's responsibility to be sure that the medication is accessible during school hours and within its expiration date. Parents may however, choose for the medication to be housed in the nurse's office.

- Parents are responsible for educating their child about managing their food allergy at school, including identifying "safe foods" by reviewing the lunch menu together, contacting the food service director for ingredient listings and reinforcing that the student should ask for help if they are unsure about choosing foods in the cafeteria or classroom.
- Parents of elementary students are strongly encouraged to provide their child's teacher with a written list of safe snacks for that child. Parents may also provide their child's teacher with a supply of safe snacks to reduce the likelihood of accidental exposure.

This policy has been developed to provide the Tina-Avalon R-II students with the safest learning environment possible. This policy will be reevaluated yearly or as needed.

STUDENT DISCIPLINE

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of the school district. No code can be expected to list each and every offense that may result in disciplinary action. However, it is the purpose of this code to list certain offenses which if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, or an aggravated circumstance of any offense or an action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent, and/or the Board of Education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the district, the superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but not necessarily limited to: acts of students on school property, including playgrounds, parking lots, and school transportation, or at a school activity, whether on or off school property. All actions may be appealed through procedural due process.

Management of student discipline is most effective when school personnel, parents, and students work cooperatively. Communication between all parties is critical. Therefore, all disciplinary actions taken will be accompanied by a *principal-parent-student-conference (PPSC)*. Teachers and other staff may be requested to participate in conferences as deemed necessary by the principal. All disciplinary actions will be noted in the student's disciplinary record. Law enforcement officials will be notified consistent with procedures outlined in the Missouri Safe Schools Act.

Reporting to Law Enforcement

It is the policy of the Tina-Avalon R-II School District to report all crimes occurring on school grounds to law enforcement, including, but not limited to, the crimes the district is required to report in accordance with law.

The following acts, regardless of whether they are committed by juveniles, are subject to this reporting requirement:

- First or second degree murder under §§ 565.020, .021, RSMo.
- Voluntary or involuntary manslaughter under § 565.024, RSMo.
- Kidnapping under § 565.110, RSMo.
- First, second or third degree assault under §§ 565.050, .060, .070, RSMo.
- Sexual assault or deviate sexual assault under §§ 566.040, .070, RSMo.
- Forcible rape or sodomy under §§ 566.030, .060, RSMo.
- Burglary in the first or second degree under §§ 569.160, .170, RSMo.
- Robbery in the first degree under § 569.020, RSMo.
- Possession of a weapon under chapter 571, RSMo.
- Distribution of drugs under §§ 195.211, .212, RSMo.
- Arson in the first degree under § 569.040, RSMo.
- Felonious restraint under § 565.120, RSMo.
- Property damage in the first degree under § 569.100, RSMo.
- Child molestation in the first degree pursuant to § 566.067, RSMo.
- Sexual misconduct involving a child pursuant to § 566.083, RSMo.
- Sexual abuse pursuant to § 566.100, RSMo.
-

The principal shall also notify the appropriate law enforcement agency and superintendent if a student is discovered to possess a controlled substance or weapon in violation of the district's policy. In addition, the superintendent shall notify the appropriate division of the juvenile or family court upon suspension for more than ten (10) days or expulsion of any student who the district is aware is under the jurisdiction of the court.

Corporal Punishment

Tina-Avalon R-II School District maintains that corporal punishment is permitted where there is to believe it will be helpful in maintaining discipline and development of the child's character and power of self-control. Parents will always be notified prior to any use of corporal punishment and will only be used after several other avenues have been used.

Documentation in Student's Discipline Record

The principal, designee or other administrators or school staff will maintain all discipline records as deemed necessary for the orderly operation of the schools. In addition, any offense that constitutes a "serious violation of the district's discipline policy" must be documented in the student's discipline record in accordance with law. Policy defines a "serious violation of the district's discipline policy" as one (1) or more of the following acts if committed by a student enrolled in the district:

- Any act of school violence or violent behavior.
- Any offense that occurs on school property, on school transportation or at any school activity and that is required by law to be reported to law enforcement officials.
- Any offense that results in an out-of-school suspension for more than ten (10) school days.

Prohibition against Being on or near School Property during Suspension

All students who are suspended or expelled are prohibited from being on school property for any reason unless permission is granted by the superintendent or designee.

Any student who is suspended for any offenses listed in § 160.261, RSMo., or any act of violence or drug-related activity defined by policy as a serious violation of school discipline shall not be allowed to be within 1,000 feet of any public school in the district unless one (1) of the following conditions exist:
